Youth In Ceremony  
At Mission

In a beautiful and impressive ceremony performed 2:30 Sunday afternoon in the church at Mission San Jose, Miss Fern Garcia, one of the most popular of Washington township's girls, became the bride of Marino Iacopi, of Niles.

Father Leal officiated at the ceremony which was witnessed by a large number of relatives and friends.

The bride was beautifully dressed in a charming crepe de satin gown and wore a veil. She also carried a bouquet of beautiful flowers. The groom was becomingly attired in dark.

Miss Mary Lucas, of Mission San Jose, was the bridesmaid, while Ernie Sequirria, of Hayward, acted as best man.

Mrs. Iacopi is the daughter of Mr. and Mrs. Antone Garcia, of Niles, and is well-known throughout this section of the county. She is very popular among the younger set of the community and has formed many friends through her associations. She was a graduate of the Washington Union high school with the class of 1929. ### FIRE THREATENS FAMOUS PALMS ON SHINN RANCH

A BELATED celebration of the Fourth of July threatened one of the two famous royal palms located on the J. C. Shinn ranch near Niles Tuesday night.

The threat came in the form of a sky rocket shot off during a display of fireworks on the lawn of the Shinn home. Although guided by the unerring eye of Jack Williamson, the rocket deviated from its intended path and ignited the top of the palm.

Both trucks from the Niles Fire Department were rushed to the scene and with their aid the blaze was extinguished without any serious damage to the tree. The palms on the Shinn ranch are two of the only four of their kind found in the entire United States.

### MAN ARRESTED FOR DRUNK DRIVING

A man was arrested on charges of drunken driving as the result of an automobile accident rate Monday night by the Southern Pacific underpass at Niles, in which A. E. Milton, of Oakland, received severe lacerations of the scalp.

Milton was alone in his machine driving toward Oakland when a car driven by a man named Christenson, also of Oakland, crashed into him, breaking the windshield and inflicting the injury.

Christenson was arrested by Officer Tony Rose and taken to Hayward where a charge of drunken driving was placed against him. Milton was treated by Dr. E. C. Grau at Niles.

### ATTRACTIVE NILES BUILDING IS COMPLETED

With the finishing touches completed this week, one of the most attractive and modern buildings in the town now graces First and J streets in Niles.

The structure built by J. A. Silva and costing approximately \$12,000 has accommodations for four business establishments. One business now occupies the building, while others are expected to enter in the near future.

"Drastic changes" in the administration of welfare affairs in the county were intimated by the supervisors at their Thursday meeting. Agency heads were instructed not to contract "any new obligations."

It was not stated whether the hint applies to the proposal originating with the Alameda County Tuberculosis association asking for a central board to administer all county welfare work.

Mr. and Mrs. R. Peterson and family spent the fourth at Santa Cruz. They were accompanied by Miss Adelaide Martin.

### NEW YORK VISITOR

### COUNTY OFFICERS SEIZE STILL IN RAID AT DECOTO

### Two Arrested And Are Held Under \$500 Bail

County officials swept down on Decoto last week and raided a home distillery on 711 Fifth street said to have belonged to Joe Keles, and alleged to have been operated by Joe Martinez.

According to the officers, the still was a small and crude affair but a larger one was in the process of construction and was almost ready for operation. A gallon and half of liquor was seized by the officers.

The two men were arrested and taken before the justice court in Hayward where charges of possession and operating a still were placed against them. Bail was set at \$500.

Those taking part in the raid were Inspector Joseph Brandon, from the district attorney's office, Deputy Sheriff Grover Mull, and Constable O. W. Ebright, of Niles.

### MAN IS BADLY CUT IN STABBING AT DECOTO

Manuel Booras received severe cuts on the head, wrists, and shoulder in a cutting scrape in Decoto Sunday afternoon. The knife was said to have been wielded by Manuel Basquez, also of Decoto.

The stabbing affray is alleged to have resulted during a quarrel between the two men Basquez who is said to have been drinking, was arrested by Constable O. W. Ebright, of Niles, and taken to the county jail in Oakland.

At the Tuesday session of the Niles justice court, the wounded man refused to file a complaint against the prisoner thus leading to his release.

### NILES FORESTERS INSTALL NEW OFFICERS

Election and installation of officers for the coming year was recently held by the Foresters of America, Court No. 110, of Niles.

The new officers are: M. C. Dassel, chief ranger; Addison Richmond, second chief ranger; L. L. Lewis, financial secretary; Frank Mendonca, recording secretary; Ray Peterson, treasurer; Guido Tuano, junior beetle; Raymond Crane, senior beetle; Italo Salvadorini, Leon Solom, and Ed Van der Naillen, trustees.

### Robbery Takes Place Dur- ing Early Sunday Morning Hours

Four men entered the Peerless restaurant at Niles early Sunday morning, covered the waiters with revolvers and rifled the till of \$108.35 in cash and checks.

The four, with a fifth man waiting outside in a car, escaped in the direction of San Jose and at the latest report had not been apprehended.

The robbery occurred at approximately four o'clock in the morning. Angelo Pappas, night manager, Frank Costa, waiter and cook, and a man and woman in one of the eating booths were the only occupants of the restaurant at the time the robbers entered. They were not masked.

Two of the men drew guns and covered Costa and Pappas while one man opened the money till and quickly emptied its contents. According to Costa, the robbers worked with a smoothness and precision that indicated they were professionals. One of the four was a Filipino.

As the men speeded away in their car, Costa ran out and attempted to obtain the license number, but was unsuccessful. Constable O. W. Ebright and other officials were notified immediately, but the robbers were not captured. It was learned later that the car in which the five were riding had been stolen in Oakland some time Saturday.

Most of the money obtained in the robbery was in cash. It was not covered by insurance.

### PLEASANTON FETE DRAWS LARGE THRONGS

With appropriate holiday spirit prevailing and a large crowd present to enjoy the attractive program offered, the celebration held at Pleasanton July 2, 3 and 4 was a huge success.

Opening with a kiddies' parade Saturday evening and completing with the horse races on the afternoon of the Fourth, there was not a dull moment during the entire fete.

One of the big features of the celebration was the mile-long parade Monday morning, in which many attractively decorated floats and cars were entered.

The horse races and horse show at the Pleasanton race track also drew the acclaim of the large number attending.

The Pleasanton Junior Chamber of Commerce who sponsored the affair were well pleased with the results of the fete, and plan to make it an annual event.

### Girl's Feet Badly Burned by Hot Coals

Carmina Koppel, a young Oakland girl, suffered bad burns to her feet Sunday when she stepped on some hot coals from a campfire in Niles Canyon. The girl was treated by Dr. E. C. Grau.

Mr. and Mrs. A. J. Petsche visited friends in Oakland on the Fourth, and witnessed the fireworks display on Lake Merritt Monday night.

### UNMASKED

America Listens-In.

Along with probably as high as half the adult population of the United States, the writer attended both the republican and democratic national conventions through the courtesy of the National Broadcasting Company. We set up a radio in the office with a loudspeaker attachment, and missed nothing while carrying on our regular routine of work.

The deliberations were a revelation to practically everyone. In years gone by we have attended several state conventions, and one national convention in the city of Denver. Never before, however, have we been able to hear all that went on, nor until the last two conventions of the past few weeks have we really gotten a clear picture of how, and why, certain candidates won the coveted prize.

\* \* \* \* \*

Ballyhoo At Its Worst.

To say that we were altogether pleased or edified by what we heard or our opinion of political leaders enhanced would be to state our reactions entirely out of harmony with the truth. We believe that most of the delegates went home to their people considerably less important, and less thought of than when they left their respective states with credentials permitting them to participate in the two major conventions. In order to promote the interests of their respective candidates, at times they performed, not like grown men and women mindful of the seriousness of their duties, but like children or not unlike college students at a football game. The hour demonstrations had no justification. There was no genuine and spontaneous enthusiasm as would have kept the delegates in an uproar for any half or any hour. It was manufactured ballyhoo, and millions of men and women who listened in understood it as such. The disgust of the radio audience was only measured by the vociferousness of the noise created every few minutes from the drop of the gavel calling the convention to order, until that same gavel brought proceedings to an end.

The two conventions, the two platforms, the two candidates are as two peas in a pod. Both were extremely anxious not to offend the powerful moneyed and corporate interests. The republican convention was a dull affair. Every move had been prearranged, and the delegates were like so many cattle. The opposition to the majority report on the platform, credentials, and rules was nil. Not even a weak voice, speaking for afflicted mankind, rose in protest against endorsement of an order of things that has plunged America into its deepest despair.

\* \* \* \* \*

The Voice of Protest Stilled

The democrats, at least, did not swallow the stand-pat platform without a vigorous fight. But they lost and from all intents the republicans and democrats are both vying for the good will, not of the average American freeman, but the powerful financial and industrial groups that have put into office every president in the past generation with the exception, perhaps, of Woodrow Wilson. We expected nothing from the party in power. That party has always represented the Tories of this broad land: and we got nothing, you and we, ordinary, hard working and clean living citizens of America. To the democrats we turned with at least a ray of hope. It was just a ray and it vanished the instant the platform committee brought in its report. The minority offered amendments—splendid amendments—all of which were voted down. McAdoo brought forward a bank deposit guarantee law plank; an able financier and an ex-secretary of the treasury, his opinion should have had weight; but his measure was unpopular with big banking interests, who have fought every movement to protect the small depositor, and his idea was voted down. Governor Murray, of Oklahoma, submitted several proposals for the immediate relief of the mortgaged farmer, for the relief of the independent oil pro-

\* MORE THAN 210,000 CALIFORNIA WOMEN SAY....

Electric Cooking is Economical...Scientifically Certain

Luck never affects my favorite recipes since I've had my Electric Range

When science turned to electricity as a means of lessening the labors of women in their household duties its greatest contribution was the electric range. When accurate thermometer temperature devices under automatic time control were made a part of the electric range, cooking became truly Domestic Science.

No woman need make guesses today with her baking—no woman need be worried about failure when she cooks with an electric range. When she cooks electrically she cooks by accurate recipe temperatures and can depend upon the precision temperature control to take all guesswork out of her most "fussy" baking.

For whole meal preparation for meats, vegetables, and cooked desserts, the woman who cooks electrically can place them all in an oven during the morning hours, leave the house for the rest of the day and come home again to a complete dinner perfectly cooked. For while she is gone the clock will turn on the clean heat of glowing electric coils and the thermometer will control the cooking temperatures.

In more than 210,000 California homes women cook not by luck but by electric cooking science. Recipes become time-after-time successes, for electric cooking is as accurate as time itself and certain as science.

See these modern marvels of cookery at your dealer's store or in your local P. G. and E. office. Electric ranges are not costly to buy and are economical to operate. Right now a Special Electric Range Offer is in effect which includes easy purchase terms.

**...Overacker's Platform...**

As a candidate for Supervisor I am fully awake to the fact that our taxes are beyond our ability, as property owners, to pay, and I recognize that ways and means **MUST** be found to reduce them.

In view of these facts I submit the platform on which I faithfully pledge myself to stand:

To support economical and tax saving measures.

The voluntary reduction of the supervisors' salaries in proportion to the reduction, already made or to be made, of the salaries and wages of other county employees.

The elimination of expensive automobiles furnished the supervisors by the county.

The elimination of the position of road foremen as under the present charter they are given no authority over road work.

To dispense with the unfair and unnecessary road tax.

Fairness and impartiality to all seeking county employment and aid.

Assure the county of receiving full value for money expended.

Respectfully submitted to the voters of the first supervisorial district.

**Alameda County Is 18th In Tax Delinquencies**

Alameda county had a delinquency of 8.02 per cent in county taxes collected for 1931-32, according to a study of tax delinquencies in thirty California counties, recently completed by California Taxpayers' Association. Figures for the county are based on information received from the tax collector as of May 17, 1932. The total tax delinquency reported by the county for 1931-32 was \$1,693,750.

The county ranked eighteenth from the highest in county tax delinquency among the counties studied. San Diego county showed the highest percentage of delinquency 20.50 per cent, and San Benito showed the lowest, .93 per cent.

The tax delinquency of Alameda county for 1930-31 was 6.32 per cent, the county ranking eleventh from the highest for that year, total delinquency being \$1,380,829. It is not fair to taxpayers to allow delinquencies to increase, the association points out. One effective remedy is to lower the tax burden so that taxpayers are not confronted with bills out of proportion to their ability to pay.

The study concludes with this question: Is the total tax burden greater than the ability of the taxpayers to carry the cost? That is a question which must be answered by budget makers and administrators for 1932-33.

## Value of Farmer Is Stressed In Bank Broadcast

"California's further prosperity depends upon the prosperity of farm lands and the courage and faith of its people," declared Bert B. Meek, President of California Lands, Inc., and former Director of Public Works for the state of California, in an address recently on Bank of America's "Back to Good Times" program.

Meek emphasized the fact that agriculture is today California's basic industry and will remain such during the life of the present generation. He therefore advised listeners to keep their eyes on the farms of this state for the first sign of returning prosperity.

Meek, in his address called attention to the fact that there has been less shrinkage in agricultural values than in any other business or security in the present depression. He further pointed out that, while there are fewer great fortunes among the farmers than among other classes of the State's population, the purchasing power of the farmer, as indicated by the United States census reports, is above that of the average city and suburban residents.

In every depression, he said, there has developed a movement from the city to the farm, and this one is following the same course.

He declared that those farmers who are taking advantage of present day costs, to acquire farm land, as well as those who have adjusted to the new conditions, are laying the foundation for a substantial fortune in the future.

Just as many present day fortunes have been based upon faith of California pioneers in the soundness of the land.

NORMAN H. PARKS, Publisher Register

ducer. Every plank he proposed was rejected. A man from Iowa made a valiant fight for farm relief, and he hardly received a courteous hearing. He wanted to limit the interest rate on mortgages, that tens of thousands of stricken borrowers might weather the storm and not lose their farms. The convention shied at the idea like it were a plague, while about them, everywhere in America, farms and homes were being sold under the hammer because of usurious rates of interest. The democratic party wanted to be safe and sane. It succeeded. Its platform gives no offense to the House of Morgan, to the multi-millionaires, to the tax-dodging corporations, and the dishonest speculators of Wall Street.

\* \* \* \* \*

**May Rue the Day.**

Representative Rankin, of Louisiana, urged the insertion of a bonus plank in the democratic platform. He made a magnificent speech in favor of that principle—a speech that would have been very difficult to answer successfully—but the delegates would have nothing of it. The country may live to regret the action taken there on this particular issue. We hope not, but fear a great error in policy was made when Rankin was squelched so unceremoniously.

\* \* \* \* \*

**Liquor Plank Fools No One.**

On the issue of the repeal of the Eighteenth amendment, the country, including many drys, is reconciled to the accomplishment of that objective. The democrats went further than the republicans. The writer, a decided dry, thinks the best thing to do now, is bring back the saloon as soon as possible. Let the people try it out. We believe they will, after a year's trial, overwhelmingly vote it out again in cities, counties and states. National prohibition probably never will return in the day of those now living, once it is taken out of the federal constitution.

Both parties were particularly anxious to impress on the voter that they were unalterably opposed to the return of the open saloon. In this respect they made themselves ridiculous. The repeal of the Eighteenth Amendment will be announced by the accolade of a bar keeper with a beer glass. Nothing can stop the saloon from coming back. Nothing should stop it if the Amendment is repealed. Better to have a saloon, where we can put our finger on the vile traffic, than every home stocked with liquor, making it a miniature bar-room. Of course the saloon will come back. The people who wrote those funny liquor planks must have thought their work a fine piece of buffoonery. None are so dull as to swallow that sophistry.

**Smith Politically as Dead as a Doornail.**

Unless a third party enters the field—and that seems at present quite improbable—it will be a landslide for Roosevelt. Nothing in the world can prevent the defeat of Hoover, now. Before the convention made the nomination, the republicans had hoped the democrats would repeat history and deadlock the convention with the result that the weakest candidate would be selected. They looked for that. They also prayed that Al Smith would win. Had he won, the democratic ranks would have been split wide open. Smith has but one plank to offer—but one excuse to justify his nomination—but one shibboleth to hurl into the political arena—booze! He represented liquor, he represented nothing else. At any rate democracy is rid of him. His hoodlums in the galleries who "booed" every decent man who attempted to win approval for progressive legislation, or talk for the millions of temperance people of America, turned hundreds of thousands of men and women, who previously may have thought Smith to be quite a decent man, into believing him to have not risen, as alleged, above his early environment of New York's East Side, but to be, after all, just a cheap ward politician. It was a shameful exhibition of poor manners, dirty politics, contemptible in the extreme, and should not have been tolerated by the chair. It will be an everlasting disgrace to Chicago, and if Al Smith lives as old as Methuselah himself, he shall not have lived long enough to have cleaned his slate of the shocking disgrace brought upon it by the hoodlums, evidently in the pay of his crowd, who occupied the galleries in the democratic convention of 1932.

**May Rise Magnificently Above His Platform.**

The democrats nominated a good man—personally a good man. His platform means nothing. He may rise above his platform. We hope so, because the democratic party will take over the govern-

**A Surgeon's Knife—not Fine-Spun Phrases—the Need of the Hour.**

No ordinary methods will cure the disease that eats at the heart of America. A republican party, under another name, will bring no relief. Radical departure from old methods, old formulas, and principles must with age, proved useless by recent application, are necessary to bring America back to its citizens. We need a surgeon's knife in the hands of a skilled physician. A major operation, now, may save our very sick patient, Representative Government. If great wealth will give up at present, half of what it has, it may hold the other half for a long time. If it still refuses to carry, not only the average burden of these times, but more than its burden, it may live to lose all. Things cannot go on forever as they are. Patience of the hungry and the unemployed may be tried beyond the point of endurance. It is dangerous to "rub it in." It is time for men who love this country, and its institutions, and who believe that the theory of competitive enterprise is a sound principle of government, and our constitution is still an admirable instrument for the protection of mankind, should demand that our public servants of whatever station return to the honest-to-God principles of democracy and root out every vestige of special privilege.

Wealth running into the billions, and controlled by a handful of men, becomes a very serious menace to our liberty and yours. It is robbing honest men and women of an opportunity to get along in the world. It is making dollar autocrats and millions of people, virtual slaves. It is vesting stupendous power in the hands of men who often have no virtue, no heart, no soul. Having more money than they need, they use the surplus to corrupt politics, stifle competition, crush opposition, and make a sham of the hallowed principles of democracy.

## Planning Christmas Dinner Means Less Work Today

By JOSEPHINE GIBSON

Director, Heinz Food Institute

THE Christmas dinner is a highlight of holiday festivities, rivaling in importance the tree and gifts. It's a joyful time of family reunions, when everybody gathers around the dinner table!

Decorations of dining room and table must be in keeping, and an idea, always lovely, is to have holly about walls, lights and pictures. Have, as a table centerpiece, a bowl of choice fruit with sprigs of holly stuck here and there; and at each place a bit of holly tied with red ribbon. The menu should not be overly elaborate but should stress good old-fashioned dishes, well prepared and attractively served. Women today are fortunate in that many good things can be prepared outside the home, so that while the dinner is as bountiful and delicious as ever, it is much less labor to prepare. Cocktails, soups, relishes, preserves and jellies, mincemeat and old-time fig and plum puddings may be purchased ready for use, without endless days of preparation necessary in grandmother's time. For the dinner we suggest one of the following menus:

Chilled Tomato Juice or Oyster Cocktail\* Celery Ripe Mission Olives  
Roast Turkey or Goose or Chicken with Dressing\* Mashed Potatoes  
Creamed or Buttered Brussels Sprouts or Cabbage  
Cranberry Jelly Fresh Cucumber Relish  
Malaga Grapes and Pineapple Salad with French Dressing  
Plum Pudding (ready to serve) with Hard Sauce  
Coffee Nuts

Cream of Tomato or Cream of Pea Soup (ready to serve)

Celery Spanish Queen Olives

Roast Stuffed Little Pig Baked Onions

Pure Apple Butter Hot Parkerhouse Rolls

Fig Pudding (ready to serve) with Ice Cream or Sauce

Coffee Christmas Candies

(\*Indicates recipes are given below.)

Oyster Cocktail: Allow six oysters per person. Serve on half shells; arranged on cracked ice in deep plate; or mix oysters with cocktail sauce and serve in stemmed glasses. Prepare cocktail sauce as follows: 1 cup Tomato Ketchup; 3 tablespoons Chili Sauce; 2 tablespoons Pure Vinegar; 2 tablespoons Evaporated Horseradish, which has been soaked for ten minutes in 2 tablespoons cold water; few drops

Pepper Sauce; 1/2 to 1 teaspoon salt; dash of pepper. Mix all ingredients thoroughly together. This makes about 1 1/2 cupfuls of sauce.

Turkey Stuffing: Crumb one loaf slightly stale bread. Season with salt and pepper to suit taste. Add 1/2 cup melted butter, 1 teaspoon cinnamon, if desired, 1 tablespoon Worcestershire Sauce and 1 tablespoon onion juice. Mix thoroughly. Press firmly into form.
